- Compatible with remote Mic Control using the TC HELICON MP-75 microphone
- Rugged, road-worthy construction for years of dependable use
- Power supply included
- 3-Year Warranty Program*
- Designed and engineered in Canada

Listen In...
Watch renowned vocal coach Brett Manning try out VOICETONE X1 for the first time – he ends up spending a lot of time on the phone...

It’s Getting Intense
VOICETONE X1 brings a modern “down ‘n’ dirty” quality to live vocals with crackling megaphones and amplified vocal distortion effects. Punctuate a word, phrase or an entire song with these sounds. The Drive and Filter controls can be set to suit your voice and the song. Kick it on, kick it off – you’re in control!

*Warranty details can be found at musictri.be.
VOICETONE X1

Single-Button Stompbox for Dramatic Megaphone and Distortion Vocal Effects

It’s Just this Simple...

- Plug in your mic, plug your pedal into the mixer & set the gain
- Turn on the effect
- (That’s it)

Of course, you can always change the style or the amount of correction, but you shouldn’t need the manual – unless you’re making a fire!

Chain It

You can chain VOICETONE X1 to all of the other VOICETONE singles, mixing and matching effects to define your personal sound. It also works with DITTO MIC LOOPER, the pure looping pedal for singers and instrumentalists. Use the Singles Connect Kit (available separately) to mix and match up to 4 TC HELICON vocal effect pedals together conveniently, simply – and with less cable clutter than ever before.

Under The Hood

Beneath VOICETONE X1’s sturdy, die-cast metal case, you’ll be getting the same quality processing you’ve come to expect from our flagship VoiceLive® vocal processors. You’ll also find a clean, quiet mic preamp that rivals high-end touring mixers, plus studio-quality analog to digital conversion. There’s even a USB connection for firmware updates.
VOICETONE X1

Single-Button Stompbox for Dramatic
Megaphone and Distortion Vocal Effects

Twisted, Warped & Contorted
1. Choose from a wide range of sounds: Megaphone; Telephone; Distortion, and Amp effects
2. Dial up more Distortion drive for intensity; dial it down for clarity
3. Filter control narrows the bandwidth and produces the perfect Phone effects
4. Dedicated on-off footswitch and USB connection for updates

More Mic, More Control
You can completely control VOICETONE X1 from your mic – simply plug in a TC HELICON MP-75 microphone (sold separately). We call it Mic Control™, and it allows you to command both the stage – and the audience!

You Are Covered
We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Tribe factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous Warranty program.
